

Matías Mercado

Mar del Plata, Argentina | +54 223-6343519 | mercadomatiasc@gmail.com

ABOUT ME

- Detail-oriented **Full-Stack Developer** specializing in building high-performance **React** and **Laravel** web applications. Backed by software engineering foundations, I build robust systems from scratch—focusing on writing secure code, decoupling architectures, and engineering optimized user experiences that scale cleanly.

TECHNICAL PROJECTS

Waves – Real-Time Social Messaging Platform | Apr 2026 – May 2026

- Stack: Laravel, React, MySQL, Laravel Reverb, WebSockets
- Architected an instant, two-way communication system using WebSocket channels, implementing custom React hooks to handle fluid frontend state synchronization.
- **Doble Amarilla – Football Scores Portal** | Feb 2026 – Mar 2026
- Stack: Laravel, React, MySQL, Relational Database Design
- Designed complex, high-performance database schemas to handle heavy relational data constraints and minimize data latency for live tournament standings.

Alpha Gaming Store – E-Commerce System | Dec 2025 – Feb 2026

- Stack: Laravel, Blade, MySQL, Authentication Systems
- Built a secure digital storefront complete with user authentication, a persistent shopping cart engine, and a dedicated administrative inventory CRUD portal.

Technical Troubleshooting & IT Support (Freelance) | 2017 – Present

- Diagnose and resolve hardware/software system failures, managing technical requirements directly for clients to deliver reliable operational solutions.

EDUCATION

- Computer Science Engineering | Universidad Nacional (UNMDP) | 2023 – PRESENT
- University Technician in Software Development | Universidad Tecnológica Nacional (UTN) | 2020 – 2022
- Technician in Personal and Professional Informatics | E.E.S.T. N°3 High School | 2012 – 2019

SKILLS

Programming: PHP, JSON, C, Java, C++, C#, Python. (OOP, data structures) .

Frontend: React.js, HTML5, CSS3, Bootstrap, Vite.js, Tailwind, Javascript (CSR, async, Router, server-side logic, TanStack Query, Motion, i18next).

Backend: Laravel, PHP, MySQL, Apache, Rest API, Postman.

Tools: Trello, Git, GitHub, Microsoft Office, Google Suite.

LANGUAGES

- Spanish (Native)
- English (Advanced in written and spoken)
